SUBJECT: LETTER OF RECOMMENDATION – MICHAEL MEIER

I feel very fortunate to have met and worked along side Michael Meier on the Sound Transit E340 project. Although arriving with little work experience related to Sound Transit, Mr. Meier quickly rose to the challenge and immersed himself into the daily routine of document control, design services and task management expected from an Assistant Project Manager. In a highly stressful work environment, Mr. Meier remained calm and collective. He diligently took notes, tracked critical tasks through completion and if ever he had a question related to his objective, he did not hesitate to ask.

Mr. Meier worked hard and was thirsty to prove himself. He has tremendous character and a collectively kind demeanor. He is an ideal candidate for any position in a team-orientated environment. An excellent listener, he is proven effective in an assistant role and certainly has the potential to grow into a Primary Lead.

Any company looking to employ Mr. Meier is encouraged to do so.

Best Regards,
